UNIVERSAL

Life Insurance Company,

—NEW YORK—

The Original Joint-Stock Life Insurance Company of the United States.

The business of this Company is EXCLUSIVELY confined to the insurance of first-class healthy lives.

The Distinctive Feature

Of the Stock system of Life Insurance, as opposed to the Mutual, is a low rate of premium for a stated sum insured, which is IMMEDIATE, SECURED and certain in lieu of a high rate of premium with a problematical dividend, which is INSTANT, CONTINGENT and uncertain; this so-called dividend being merely a return of a portion of the excessive and extraordinary premium charged in the first instance.

Illustration.

Suppose that an individual aged thirty desires to devote $200 a year for the purpose of securing an insurance on his life; the actual will immediately realize him in the UNIVERSAL the sum of $21,384, payable on his decease. This sum, paid to a Company charging the ordinary mutual rates, would secure him the sum of $6,666—a difference immediately secured, in favor of the UNIVERSAL, $3,277.

To illustrate the importance to the policy-holder of the low premiums in stock Companies, it is stated that by a reduction of twenty-five per cent. in the rate of premium, the same amount of insurance, under a policy thirty-three and one-third per cent. greater, and likewise that a reduction of twenty-five per cent. in the rate of premium of the Universal, exclusively equitable, would give a dividend of thirty-three and one-third per cent. payable at maturity, or in a dividend of forty-five per cent. payable at the end of five years.

By the Stock plan the full cash effect of the premium is to the policy-holder secured to the Insurance Company selling all the risk. By the Mutual plan the full value in insurance and fine profits is not secured to the policy-holder, who takes a portion of the risk himself.

The Premiums

Charged by the Universal are as low as the actual approximate of insured life in this country will justify. Such as to secure a Non-Forfeiture Policy, which cannot be lapsed by any failure to pay a single premium. It will be argued next Friday. Julian Hartridge represents Williamson, and A. W. Stone, Rose. How these Radicals cling to the flesh pots!

THE WATKINS TROUPE.—This fine troupe played last night to a good house. It is one peculiarity of our Atlanta theater goers, that good performances are always patronized. They have but to learn that a really meritorious troupe is here to attend liberally.

The Watkins' rivetted last night the good impressions of their first performance, and each new exhibition will but confirm their popularity.

"REDUCTION PREMIUM PLAN,"

By which a reduction of one-third is made in the premiums of annual payment, being, in fact, equivalent to a dividend of $2 13-3 per cent., is inserted in the policies issued by the "Universal," in addition to the Guaranteed Cash Values and guaranteed.

Full Insurance Agents' Commission paid to good, live solicitors. Local Agents wanted in every town and county. Address

The Future of Atlanta.

We call the attention of our Atlanta people to the article in another column, headed as above. It contains a vast amount of fact and matter for serious consideration in a very small space, and its statements, undoubtedly correct, should put every taxpayer to very earnest thought.

We commend its perusal, and endorse its statements entirely.

The Future of Atlanta.

Editor Constitution: I have always had great faith in the future of Atlanta. No man has watched her growth in population and in commercial importance with more satisfaction than myself.

But is there not great danger of a retrograde in her career? Let us consider this subject as friends of the city—not as its enemies. Atlanta is preeminently a railroad city. Take away her railroad facilities, and the city had as well be destroyed. If she loses her central position as a railroad city, her ruin is accomplished.

A glance at the map shows at once how our position may be lost. A railroad is being built from Newnan to Griffin, on the Atlanta and Charlotte air line road. Another road is projected from Griffin to Macon; another from Macon via Covington to Knoxville, Tennessee; another from Griffin to Senoia, on the Chattahoochee river to Knoxville; another over the Athens branch road to Knoxville; another from North Carolina via Morganton to Dalton.

From Dalton via Rome, to Selma has already been built. Another road is projected from Chattanooga, via Rome and LaGrange, to Columbus. Several roads are being built through various points in the Mississippi Valley through Corinth to Grand Junction, Memphis and Eufala to supply South Western Georgia with western produce. All of these roads threaten us most seriously. *They run around Atlanta*, and Atlanta's position is not counteracted, will do her great harm.

How are we to prevent this mischief? Three railroads will make our position impregnable—the line now run by the Georgia, Central and Chattanooga, and the Atlanta and Savannah have a good start in subscription. If Atlanta will take $250,000 of stock its success is secured. The stock will be good property and can be sold when the road is in operation and our debt will not be increased. Rome and Columbus have just subscribed $200,000 each to proposed railroads. Are these places more wide awake?—more alive to their interests than Atlanta? ATLANTA.

On Advertising Governor Bullock's Proclamations.

Ed ter Constitution: I have found but one fault with your warfare against the advertising of Bullock's proclamations—the heat of battle is fought at the wrong time.

Money the root of many evils; and, if there is anything in the world that can cramp the moral powers of the soul, and shut out everything else but self, it is this mighty agent. Do not, therefore, open batteries when the enemy is encamped; but wait out, but wait until all is quiet and calm, then the judgment may be reached.

To do not charge corruption, treachery, or that for gold any have sold themselves, but as there is a secret, silent influence that follows the jingle of a dollar, that your brethren of the press have compromised themselves so far as to be beyond your recovering when the spell is rompered.

The subject is a simple one, and needs no moral philosopher to seek for hidden truths to make more plain.

Is the law fitting to express obedience of law? Is it an institution of law absolutely necessary for public weal? or is it by implication of law for partisan purposes? If it expressed obedience of law, or necessary and by implication of law, it is not wrong. If for partisan purposes and useless, it is wrong, and papers engaging in it are parties to the plunder, and should not deserve public confidence.

The conclusion is easily drawn.

If it is the duty of the papers to protect the public interest, is it not as much their duty to "raise the wind" when the money is recklessly squandered on them, as upon other parties? If they fail, is it not sufficient evidence of moral depravity? You have argued the questions well. The people are with you to a man. Respectfully,

CHAMPOLION.

Louis Adolph Thiers.

The following description of the great statesman, who is at the head of affairs in France, is taken from the British Quarterly Review:

As to physical appearance, it is impossible to conceive a more ignoble little being than Adolph Thiers. He has neither figure, nor shape, nor grace, nor mien; and truly, as the most graphic description of Cormenin (Timon) says, looks like one of those provincial barbers who, with brush and razors in hand, go from door to door offering their savoirfaire.

His voice is thin, harsh and reedy; his aspect sinister, deceitful and tricky; a sardonic smile plays about his insincere and mocking mouth, and at first you are disposed to distrust so ill-favored a looking little dwarf, and to disbelieve his story. But hear the persuasive little pigmy, hear him fairly out, and he greets you with such pleasant, lively, light, voluble talk, interspersed with historical remark, personal anecdote, ingenious reflections, all conveyed in such clear, concise and incomparable language, that you forget his ugliness, his impudence, insincerity and dishonesty. You are charmed, as Rousseau said in one of his most eloquent letters, "in listening are undone."

As a journalist he was successful, as a historian he was notorious, and national to a certain extent. He has, no doubt, many talents and defects, but his successes in life are more owing to his worst vices than to his negative virtues. He is probably the most intelligent man in Europe, if a perception of the wants and wishes of the million indicate it, but some think him also one of the most unscrupulous, mocking and corrupt of

Politics.

It is stated that about twenty-five seats in the Forty-second Congress will be contested.

The Ohio Democracy announce that they intend to make a vigorous canvass this fall. They wish to have something to say about the Democratic nomination for the Presidency.

Hon. William S. Williams, a Republican member of the Ohio House of Delegates, died on Monday. His death leaves the House divided as follows: Republicans, 56; Democrats, 55; vacancy, 1. It requires, under the State Constitution, fifty-seven votes to pass a bill through the House.

Colonel William M. Ferry, the Democratic candidate for Congress in the Fourth District of Michigan, is a brother of United States Senator Ferry, and, it is predicted, will make a strong run. He is nominated to fill the vacancy in the House caused by the transfer of Hon. Thomas W. Ferry to the Senate.

It is reported that Governor Butler, of Nebraska, has called out a thousand ninety-days men to prevent his impeachment and expulsion from office. If this proves true, then we are prepared to believe everything we have ever heard derogatory of the doughty Governor, and we have heard a good deal.

There is an excitement at St. Catherines, in Canada, over the attempt of the negroes to force their children into the public schools with the whites. The St. Catherines Times says that if the negro children are admitted all the white pupils will instantly leave. The two races cannot be educated under the same roof. This is Canada, mark you, not South Carolina.

"THAT MAN IS A DIAMOND THIEF!"—So said a distinguished member of Congress of one R. H. Whiteley, after seeing him blanch, and lie and snivel through a low, sneaking shambling statement before a Committee in Washington, in reply to Hon. Nelson Tift. [*Albany News.*

☞ In Albany, N. Y., last week, there were forty-three births, twenty-three marriages and thirty deaths. Among the deaths were two persons 76 years of age, one of 81, one of 78, one of 77, and one of 73.

"Schnapps" is a remedy in chronic catarrhal complaints etc.

I take great pleasure in bearing highly creditable testimony to its efficacy as a remedial agent in the disease for which you recommend it. Having a natural tendency to the mucous surfaces, with a slight degree of stimulation, I regard it as one of the most important remedies in chronic catarrhal affections, particularly those of the genito-urinary apparatus. With much respect, your obedient servant,
CARL A. LHAM, M. D., New York.

SPRING STREET, NEW YORK, Nov. 21 1867.—Prof. PROF. WOLFF, Esq.: Present Dear Sir—I have made a chemical examination of a sample of your "Schiedam Schnapps," with the intent of determining if any deleterious or injurious substance had been added to the simple distilled spirits.

The examination has resulted in the conclusion that the sample contained no poisonous or harmful admixture. I have been unable to discover any trace of the injurious substances which are sometimes employed in the adulteration of liquors. I would not hesitate to recommend to the medical profession, for medicinal purposes, the "Schiedam Schnapps" as an excellent and unobjectionable variety of gin. Very respectfully yours,
CHAS. A. SEELY, Chemist.

CHEMICAL AND TECHNICAL LABORATORY, 18 EXCHANGE PLACE, NEW YORK, Nov. 25, 1867.—Rudolphus Wolff, Esq.: Dear Sir—I have carefully and thoroughly analyzed a sample of your "Aromatic Schiedam Schnapps," selected by myself, and have found the same free from all organic or inorganic substances, more or less injurious to health. From the result of our examination, we consider the article one of superior quality, healthful as a beverage, and effectual in its medicinal qualities.

THIS Company has purchased the right to manufacture Gas in the Southern States, viz: the State of Georgia, Alabama, Florida and South Carolina. The Gas is generated by a simple chemical process, without fuel or heat. Machines are made suitable for dwellings, printing offices, hotels, churches, halls and factories, in cities or in the country.

The gas manufactured from the "Generator" for beauty, safety and economy is unrivalled—the cost being about one-fifth of the ordinary coal gas. The machine is in successful operation and may be examined by the public at the office of the Georgia State Agricultural Society's Gas Generator, "in the Stables" at the Fair ground.

For further information address the Company at Rome, Georgia.

ETIWAN GUANOS, SOLUBLE MANURES.

—AND—

SULPHURIC ACID,

MANUFACTURED AT THE

ETIWAN WORKS,

CHARLESTON, S. C.,

BY THE

Sulphuric Acid and Superphosphate Co.

THE new well-known *ETIWAN GUANO* is manufactured from the Native Bone Phosphates of South Carolina. These Phosphates, in their natural state, are insoluble, and require to be ground to powder, and made Soluble by Sulphuric Acid. This Company have now in operation the largest Sulphuric Acid Chambers at the South, and are, therefore, able to manufacture at the lowest rates, the highest grade of Fertiliser; it being clear that the greater the proportion of Soluble Phosphate which any Fertiliser contains, the less the quantity required per acre. In order to make the Fertiliser complete, Ammonia and Potash in sufficient quantities are added. With these views the Company manufacture and offer for sale

ETIWAN GUANOS,

Warranted to contain from 18 to 20 *PER CENT. OF DISSOLVED BONE PHOSPHATE OF LIME*, and from 3 to 3½ per cent. of *AMMONIA*, with a sufficient addition of *PERUVIAN GUANO* and *POTASH*, to adapt it to all crops. Price $35 per ton, cash; on time, $36 per ton, and interest 7 per cent. per annum.

DISSOLVED BONE,

Of high grade, suitable for Manufacturers or for Planters, being in itself an excellent Fertiliser, and especially adapted for compost. As large quantities of Sulphuric Acid are used to dissolve the Phosphate, this will be found a cheap and convenient way to transport that material. The grade furnished will be from 16 to 20 per cent. Dissolved Bone Phosphate. Price $16 per ton, cash. On time, $18, with interest at 7 per cent. per annum. Still higher grades will be furnished to order at additional price per ton/age.

Compound Acid Phosphate,

Specially prepared for compositing with cotton seed and other plantation manures. Price $28 per ton cash; on time $30, with interest at 7 per cent. per annum.

GROUND BONE,

At mush lower rates, consisting simply of the Native Bone Phosphates ground to powder. Price $20 per ton, cash. On time, $22 and interest at 7 per cent. per annum.

N. B.—The percentage of Dissolved Bone Phosphate of Lime, and Ammonia in all the Fertiliser, is ascertained at the Works, by their Chemist, before delivery. Should any purchaser be dissatisfied, he may receive average samples of any purchase, within thirty days after delivery, and they will be analyzed anew and any deficiency in the percentage guaranteed will be made good to him by the Company.

DEMOCRACY ASCENDANT!!

THE GRANITE STATE RE-TURNS TO ITS OLD FAITH!

New England, the Hot Bed of Radicalism, Wheeling Into Line.

The First Big Gun for 1872!

The glorious news of a Democratic triumph in New Hampshire, seems to be pretty well confirmed. And it is a gratifying augury for the future. For the first time since the Pierce campaign, some eighteen years ago, this State has gone Democratic. The victory is an exhilirating one. It is ominous for Radicalism. It shows that at last the Northern mind is being touched by the alarming portents of despotism. The wicked usurpations of a tyrannous faction are beginning to awaken the popular indignation and excite general public opposition.

And well they may. The vassalage of the South has been but the inevitable precursor to tyrannous clutch upon the liberties of the North.

The South has kept alive the spirit of constitutional resistance to partisan despotism, and to the overthrow of constitutional law. Nor in this heroic and calumniated antagonism to wrong has she been selfish. She has been battling, not so much for the South, as the cause of liberty in the whole Republic. And the day is coming when her resolute adhesion to great principles of political truth in the black season of adversity, and amid a perversion of her purposes, and a misconstruction of her course, never surpassed in the annals of mendacity, will be gratefully recognised as a national benefaction.

Let this initial victory of the people over despotism, of constitutional law over the heresies of Radicalism, unite the rallying hosts of the Democracy to new efforts in the great cause.

Let the opponents of Centralism gain new life and hope. Let triumph inspire to renewed interest in the cause of constitutional law, to new zeal in the grand battle for the restoration and supremacy of true civil authority. Let no luke-warmness result from the belief that the contest is won. Remember that a wary, resolute, unscrupulous faction will be as much alarmed as their opponents are stimulated by this significant Democratic triumph.

We say again, let the people take cheer. The day of a better era dawns in this gratifying event. Let us take a still firmer stand for principle and the right, confident that it eventually triumph; and that its

Why is there a failure to carry out the ordinance relative to obstructing sidewalks with boxes, barrels, etc., of goods, either for sale, show or delivery. We can see no reason in allowing during the day, and frequently such a pathway through boxes, barrels & c. of two or three feet, and often it is the case that the sidewalk is entirely obstructed.

J. B. Floyd, a practical and experienced watch maker, has become associated in business with the late firm of George Sharp, Jr. His connection with leading jewelry houses for the past twenty years, and his experience and capital, will enable the new firm to offer inducements to purchasers in style, quality and variety superior to all efforts made heretofore. The motto of the firm is, first-class goods, quick sales and small profits. They have secured the services of Mr. G. S. Tait, an experienced watch maker, recently from Scotland, who, from long experience and skill, is prepared to do all kinds of fine work.

FIRE.—Last night, between nine and ten o'clock, a fire broke out in the one-story wooden building at the corner of Broad and Mitchell streets, owned by John Ryan. The fire is a confectionery, and burned with great rapidity, and but little was saved in the building. The origin of the fire is unknown. Mr. Lawshe had about $500 worth of stock, and was insured for $300. Mr. Ryan's loss on the building, a dwelling of Jake Hunter, next to it, was damaged considerably by the fire, and the furniture by removal. The loss of Mr. Shehane about $500 or $800. The firemen were out promptly, and by their timely efforts prevented the spread of the flames. A member of Tallulah was overcome by the heat.

Mr. Local: I have only time to say to you in a word, that my plans at Atlanta are likely to be interfered by a relative of mine, who has left the position of teacher, or principal, of one of the departments in my college at Athens. It has been my purpose for two years past to locate one of the best institutions in this country at Atlanta, and to go there with my interests and I have only waited for matters to become more settled in the south to carry out my plans.

My relative, Mr. A. H. Stephens, who has known of my plans, I understand, takes advantage of my absence and goes to Atlanta to open an Eastman Institution. I have no objection to this, excepting that I understand he will represent that it is a branch of this institution, "Mercer." If I find I shall open a college in Atlanta the coming fall, and I am already preparing for it. I shall also be up my building projects in July and make arrangements to go to Atlanta early in the fall. My election yesterday as Mayor of this city will not interfere with such purpose. If I cannot secure a proper building there, I purpose to erect one.

Respectfully, N. Y., March 9, 1871. J. H. LUMPKIN.

DeGive's—The drama of "Molly Bawn" was well put on at this place last night, and was well taken care of by the entire company. While the domestic romance, "Molly Bawn," has its good points it is rather deficient in plot. In fact, its chief attraction is Molly Bawn, with songs, "Poor Though My Cot May Be," Great Spirit Hear My Prayer," "Annie Maria" and "Come Back to Erin" are all sweet songs, and Mrs. Watkins did justice to them all. "Come Back to Erin," was rendered with a simplicity and easiness and ballad that won all ears. Into the song of "Great Spirit Hear My Prayer," she infused a feeling fervor and spirit of devotion that won the hearts of the audience.

As to Larry O'Leary, it is only necessary to say, the character was entrusted to Harry Watkins, and confidence in him is never misplaced. The Earl of Dunmore was impersonated with great fidelity by Mr. McManus. Mr. Paul made all that the author intended of Rosslyn. Lilly Lover received excellent treatment at the hands of Miss Pierson. This young lady grows more and more into popular favor, evincing as she does, talent and taste.

The company are giving satisfaction to our theater goers.

LAST evening we met with a very intelligent gentleman, an old acquaintance, who informed us that he had just been traveling over Louisiana, the Black Mississippi bottoms, and through Tennessee. He stated that a great deal of the country he passed through looked almost desolate. Everything so far looked unfavorable through the entire journey.

If a trivial case involving the title to a dog comes up before one of our Justices, thirty or forty able-bodied men will linger around the room an entire afternoon to hear the case. If an empty freight car runs off the track at the Whitehall crossing, some fifty or sixty able-bodied men will immediately be collected around the car.

All over the country there is too much idleness. What has become of Mr. Kicklighter? It is to be hoped that he has not "become weary in well doing," but that he will be diligent in collecting up vagrants.

The balmy air and bright sunshine are bringing garden seed into demand. Our people do not pay the attention to their gardens that they should; we notice many neglected spots of ground about the city, on which a great many vegetables could be raised.

DISTRICT COURT OF THE UNITED STATES FOR NORTHERN DISTRICT OF GEORGIA.—The Court met at 10 o'clock yesterday morning, Hon. John Erskine, presiding.

One new indictment was returned by the Grand Jury.

It was ordered and adjudged by the court, in the case of Sanford Tuggle, who was up for distilling without having paid the special tax, he be imprisoned in the county jail for three months.

Ira Hayes was up for distilling without paying special tax. Plead guilty, and was ordered to be imprisoned in the county jail for twenty-four hours and to pay costs.

Emanuel Findley was up under an indictment for distilling without paying special tax. Found not guilty.

George W. Pitcher was up for distilling without paying special tax. Plead guilty. He was ordered to be confined in the county jail for six months; also to pay a fine of $1,000 and cost of case.

An echoneater was granted in the case of G. W. Paine and his securities.

Isaac Rabun, colored, was up for distilling without having paid special tax. Found not guilty.

Eight civil cases were tried and judgments rendered.

Among other things occuring in Court yesterday, in Equity Rule 25, it was ordered that the Clerk of the Court be and he is hereby vested with general power to name Commissioners in commissions to be issued to take testimony in like manner that the Court or Judge thereof can now do, by the 19th Equity Rule, prescribed by the Supreme Court of the United States. There was quite an attendance at the Court yesterday.

PHILIP PHILLIPS.—Those who had the pleasure of hearing the Singing Pilgrim last night for the first time will consider it as a marked era in their life. He is undoubtedly a remarkable man. The beautiful hall at The H. I. Kimball House was thronged with a large and appreciative audience. Mr. Phillips was introduced to the audience by Rev. Mr. Knowls, of the Northern Methodist Church. He opened the services by reading "Words of song from the word of God," after which he led the audience in singing "Praise the Lord our Great Creator."

Rev. W. L. Mansfield prayed a fervent and impressive prayer. Mr. Phillips sang, Singing for Jesus; He Leads us on; The Rescue; Renounce the Cup; Scatter Seeds of Kindness; Your Mission, and the Trundle-bed Song. He also gave selections of songs for congregational singing for the sanctuary, prayer-meeting and Sabbath-school, the audience joining in the chorus, with fine effect. Mr. Phillips made some sensible and practical remarks upon congregational singing, and the beauty and power of all the congregation uniting in singing the praise of the Most High.

He did not oppose choirs, but, on the contrary, thought them a great blessing. He possesses a tenor voice of remarkable sweetness and great compass, remarkable for its clear, ringing quality, for the purity of its tone, and its flexibility and volume. His power is marvellous, thrilling and subduing the entire audience into the deepest silence, and causing all to be on the qui vive for fear that a single note might be missed. There is not only the sweetest music but the purest gospel in his singing.

Would that there were more Philip Phillips in our congregations and Sabbath Schools. It is suggested that in accordance with his previous acts, he might be induced to give us another evening of sacred song for the benefit of the churches on the north side of Whitehall crossing.

THE GREAT VERNAL SPECIFIC.—No class of invalids are more sensitive to changes of season and variations of temperature than dyspeptics and persons of bilious habit. Tender lungs are not more easily affected by these vicissitudes than feeble stomachs. If there is a tendency in the system to indigestion, billiousness, or bowel complaints, the variable weather of early spring is almost sure to develope one or the other of these ailments. Intermittent fevers are also more prevalent in the spring months than at any other season except autumn. In view of these facts, this seems to be a proper time to invite especial attention to Hostetter's Stomach Bitters, a medicine, which for a long series of years, has proved superior to all others as a remedy for the above named disorders, and as protection against the miasma which frequently produces, and always aggravates them. It was formerly the practice to give violent cathartics as "spring medicines," nor is the custom yet entirely obsolete. Nothing, however, can be more ill-judged and unphilosophical. The chilling moisture with which the air is loaded at the breaking up of winter, presses heavily upon the vital forces of the body, and reinforcement, not depletion, is what it requires. The Bitters is a genial and excellent tonic, a moderate alterative, and just enough of an aperient to regulate, without convulsing, the bowels. It is, therefore, a specific peculiarly adapted to the present season. march12—dlw&w1t

LIFE Insurance appears to be all the rage at the present time. On all sides we hear of new companies springing into existence, some to drag along a few years and then subside, others having sound capitalists at their head become powerful corporations, doing good to the widow and orphan. No one, in this go ahead age, that considers himself a prudent man, but what has a policy of insurance on his life. These same parties will find it prudent to keep their digestive organs in tone and their system in health by taking an occasional dose of the tonic of the age—Lippman's Great German Bitters.

TWENTY-FIVE PER CENT. SAVED by using Dooley's Yeast Powders in the preparation of biscuits, rolls, pastry, etc., over any of the ordinary baking powders in market. This is occasioned by the full net weight in each package, and the fact that it is composed of the articles strictly pure, healthy and nutritious, which insures satisfactory results every time. By using Dooley's Yeast Powders, thirty pounds more bread can be made from a barrel of flour, than by any other process of raising dough. A trial will satisfy any one of its standard excellence. GOOD NEWS AND GOOD-BYE OLD RAT. Prof. I. Isaacson, the inventor of the famous "Sure Pop" is here. His preparation is entirely a new thing. Prof. I., has made the subject of rats and mice a life long study, and the result has been the invention of this rat killer, which causes them to leave their holes and die in the open air. Besides certificates from the crowned heads of Europe, Prof. Isaacson has some from Willard's Hotel, the White House, Washington; Astor House, New York, etc. The sale do not die on the premises, consequently there is no bad odor arising from the dead rats. Every family should have a box of it, as it costs only 25 cents. For sale by all druggists. march12—dlw

WOMAN'S BEST FRIEND.—To relieve the aching head of woman and bring joy where sorrow reigned supreme, is a mission before which the smiles of kings dwindle into utter insignificance. To do this is the peculiar province of Dr. J. Bradfield's Female Regulator, by which, from the numberless cures it has accomplished, is appropriately styled Woman's Best Friend. The distressing complaint known as "whites," and the various irregularities of the womb, to which woman is subject, disappear like magic before a single bottle of this wonderful compound. It is prepared by L. H. Bradfield, Druggist, Atlanta, Ga., and sold at $1.50 per bottle by respectable druggists everywhere. Physicians prescribe it. Its action is prompt, sure and decisive. nov5-tf

Dr. John Bull's

Great Remedies.

DR. JOHN BULL,

Manufacturer and Vendor of the Celebrated

Smith's Tonic Syrup,

FOR THE CURE OF

Ague and Fever,

—OR—

Chills and Fever.

THE Proprietor of this celebrated medicine justly claims for it a superiority over all remedies ever offered to the public for the safe, certain, speedy and permanent cure of Ague and Fever, or Chills and Fever, whether of short or long standing. He refers to the entire Western and Southwestern country to bear him testimony to the truth of the assertion, that in no case whatever will it fail to cure, if the directions are strictly carried out. In a great many cases a single dose has been sufficient for a cure, and whole families have been cured by a single bottle, with a perfect restoration of general health. It is, however, prudent, and in every case more certain to cure, if its use is continued in smaller doses for a week or two after the disease has been checked, more especially in difficult and long standing cases. Usually, this medicine will not require any aid to keep the bowels in good order; should the patient, however, require a cathartic medicine, after having taken three or four doses of the Tonic, a single dose of BULL'S VEGETABLE FAMILY PILLS will be sufficient.

JOHN BULL'S Principal Office, No. 40 Fifth Cross Street, Louisville, Kentucky.

Bull's Worm Destroyer.

To my United States and World-wide Readers.

I have received many testimonials from professional and medical men, as my Almanacs and various publications have shown, all of which are genuine. The following letter, from a highly educated and popular physician in Georgia, is certainly one of the most sensible communications I have ever received. Dr. Clement knows exactly what he speaks of, and his testimony deserves to be written in letters of gold. Hear what the Doctor says of Bull's Worm Destroyer:

VALLANOW, Walker County, Ga., June 29, 1868.

DR. JOHN BULL:

DEAR SIR—I have recently given your "Worm Destroyer" several trials, and find it wonderfully efficacious. It has not failed in a single instance to have the wished for effects. I am doing a pretty large country practice, and have daily use for some article of the kind. I am free to confess that I know of no remedy recommended by the ablest authors that is so certain and speedy in its effects. On the contrary, they are uncertain in the extreme. My object in writing you is to find out if you can furnish me with the medicine direct from you. If I can get it upon easy terms, I shall use a great deal of it. I am aware that the use of such articles is contrary to the teachings and practice of a great majority of the regular line of M. D.'s, but I see no just cause or good sense in discarding a remedy which we know to be efficient, simply because we may be ignorant of its combination. For my part, I shall make it a rule to use all and any means to alleviate suffering humanity which I may be able to command—not hesitating because some one more ingenious than myself may have learned its effects first, and secured the sole right to secure that knowledge. However, I am by no means an advocate or supporter of the thousands of worthless nostrums that flood the country, that purport to cure all manner of disease to which human flesh is heir. Please reply soon, and inform me of your best terms. I am, sir, most respectfully,

JULIUS P. CLEMENT, M. D.

BULL'S

SARSAPARILLA.

A GOOD REASON FOR THE CAPTAIN'S FAITH.

READ THE CAPTAIN'S LETTER AND THE LETTER FROM HIS MOTHER.

BENTON BARRACKS, MO., April 20, 1866.

DR. JOHN BULL—Dear Sir: Knowing the efficiency of your Sarsaparilla as a blood healing and beneficial qualities it possesses, I send you the following statement of my case.

I was wounded two years ago—was taken prisoner and confined for sixteen months. Being moved so often, my wounds have not healed yet. Have not set up a moment that I was wounded. I am shot through the hips. My general health is impaired, and I need something to assist nature. I have more faith in your Sarsaparilla than in anything else. I wish that that is genuine. Please express me half a dozen bottles, and oblige, CAPT. C. P. JOHNSON,

St. Louis, Mo.

P. S.—The following was written April 30, 1865, by Mrs. Jennie Johnson, mother of Captain Johnson:

DR. BULL—Dear Sir: My husband, Dr. C. S. Johnson, was a skillful surgeon and physician in Central New York, where he died, leaving the above C. P. Johnson to my care. At thirteen years of age he had a chronic diarrhœa and scrofula, for which I gave him your Sarsaparilla. It cured him. I have for ten years recommended it to many in New York, Ohio and Iowa, for scrofula, favor scores and general debility. Perfect success has attended it. The cures effected in some cases of scrofula and fever sores were almost miraculous. I am very anxious for my son to again have recourse to your Sarsaparilla. He is fearful of getting a spurious article, hence his writing to you for it. His wounds were terrible but I believe he will recover. Respectfully,

JENNIE JOHNSON.

BULL'S

Cedron Bitters.

AUTHENTIC DOCUMENTS.

ARKANSAS HEARD FROM.

Testimony of Medical Men.

STONEY POINT, WHITE CO., ARK., May 23, 1866.

DR. JOHN BULL—Dear Sir: Last February I was in Louisville purchasing drugs, and I got some of your Sarsaparilla and Cedron Bitters.

My son-in-law, who was with me in the store, has been down with rheumatism for some time, and commenced on the Bitters, and soon found his general health improved.

Dr. Gist, who has been in bad health for several years—stomach and liver affected—he improved very much by the use of your Bitters. Indeed, the Cedron Bitters has given you great popularity in this settlement. I think I could sell a great quantity of your medicines this fall, especially of your Cedron Bitters and Sarsaparilla. Ship me via Memphis, care Rickett & Healy. Respectfully,

C. B. WALKER.

ROSADALIS.

The Great American Health Restorer, purifies the blood and cures Scrofula, Syphilis, Skin Diseases, Rheumatism, Diseases of Women, and all Chronic Affections of the Blood, Liver and Kidneys. Recommended by the Medical Faculty and many thousands of our best citizens.

Read the testimony of Physicians and patients who have used Rosadalis, for our Rosadalis Guide to Health Book, or Almanac for this year, which we publish for gratuitous distribution; it will give you much valuable information.

Dr. R. W. Carr, of Baltimore, says:

I take pleasure in recommending your Rosadalis as a powerful alterative. I have seen it used in two cases with happy results—one in a case of secondary syphilis, in which the patient pronounced himself cured after having taken five bottles of your medicine. The other in a case of Scrofula of long standing, which is rapidly improving under its use, and the indications are that the patient will soon recover. I have carefully examined the formula by which your Rosadalis is made, and find it an excellent compound of alterative ingredients.

Dr. Sparks, of Nicholasville, Ky., says he has used Rosadalis in cases of Scrofula and Secondary Syphilis with satisfactory results—as a tonic of the blood I know no better remedy.

Samuel G. McFadden, Murfreesboro, Tenn., says:

I have used seven bottles of Rosadalis, and am entirely cured of Rheumatism; send me four bottles, as I wish it for my mother, who has scrofulous sore eyes.

Benjamin Bechtol, of Lima, Ohio, writes I have suffered for twenty years with an inveterate eruption over my whole body, a short time since I purchased a bottle of Rosadalis and it effected a perfect cure.

Rosadalis is sold by all Druggists.
